

**PRE-
PRIMARY**

**ENRICHMENT ACTIVITY
THEME: SOCIAL ETIQUETTES
(APRIL- MAY 20)**

“Social etiquettes don’t just help polish a child’s personality but also make them grow into responsible adults”

A **Social Etiquettes Workshop** was conducted for the learners, wherein they were taught to follow table etiquettes which included the proper way of holding and using a spoon/fork, chewing with a closed mouth etc. The learners also learnt the skill of laying table using cutlery, water glasses, bread plates and napkins etc.

The social benefits associated with personal habits must also be considered therefore, learners were told to practice good oral hygiene and care for teeth through a **Reflection on Dental Hygiene.**
